My dear O. Gray,

I sometimes since recd.
your tribute to the character & merits
of Jeffries Wyman. It was imme-
diately taken possession of by
my daughter, Mrs. Algernon Loring,
and not returned to me until
yesterday. These things lead to
most very great interest, and thank
you for sending it to me; and,
especially, for having put into a
lovely shape that remarkable
corruption, detailed on the 30th
page, upon the true merits and

defects of brain and system.

Believe me

subbly,

Longest looking.
